Daily Dose of Rhythm Exercises

The MacPhail Suzuki program will celebrate the month of February by challenging students to a daily dose of rhythm exercises for 29 days!

The goal is to help students organize themselves to maintain a steady beat while demonstrating ease and fluency with a variety of rhythms. This is an important skill to continue developing at all levels of musicianship.

- Teachers will help students choose a level for a month of exercises: Twinkle, Bach, Mozart, Brahms or Shostakovich
- Teachers will share strategies for setting and keeping a steady beat.
- Teachers will share their suggested language for finding and counting the rhythms within a steady beat.
- Teachers will communicate what is required to master the daily exercise (tapping, clapping, counting aloud, playing, etc).

Each ❤️ represents a day in February.

**Complete all 29 exercises?** Submit your photo with your completed chart and your teachers signature by Monday, March 9, 2020 to larusso.kamini@macphail.org Photos will be published in a Special Edition of the Suzuki Gavotte Newsletter.
