

NoteWorthy Instruction Program – Metro Area Schools

Submission Deadline May 10, 2024

Since 1989, MacPhail School Partnerships have been enriching the lives of students by providing unrivaled in-person or live online instruction in tandem with Minnesota schools. Our staff works with schools to develop customized and relevant programming through individual instruction, sectionals, ELL support, residencies, masterclasses, and more.

Project Amplify is an equity-focused music education initiative offered to Minnesota K-12 music classrooms at no charge to the school. The program focuses on strengthening learning opportunities for K-12 Minnesota music students from historically marginalized backgrounds by providing transformational programming that nurtures creativity, honors students' backgrounds, and provides tools and resources to support K-12 educators. These efforts are made possible with the generous support of donors.

Through Project Amplify, we are excited to announce the second year of our **NoteWorthy Instruction Program (Metro Area Schools)**. This new opportunity will grant ten Twin Cities metro area schools 25 hours' worth of in-person instruction from MacPhail faculty to supplement their music classroom. Project examples include sectional coaching, individual lessons, music production courses, composition residencies, etc.

- Name of Primary Contact
- Job Title of Primary Contact
- Email Address of Primary Contact
- Name of school
- School address
- Principal Name
- Principal Email Address
- Age/Grades of students served
- Type of school
- Number of miles from MacPhail Minneapolis (501 S 2nd St)

- In 250 words or less, explain how your proposal fits into the spirit of Project Amplify’s mission to strengthen learning opportunities for students from historically marginalized backgrounds

- Have you worked with MacPhail School Partnerships in the past? Please explain.

- Are there any specific MacPhail faculty you’re interested in working with?

Proposals will be reviewed and scored by a panel of MacPhail staff to identify the five proposals that most strongly address the mission of Project Amplify and provide the strongest benefit to students. Chosen proposals will be announced by June 3, 2024 via email, and we will set up a time to discuss scheduling and logistics. If selected for the Noteworthy Instruction Program, some small changes may be necessary to meet both your goals and logistical needs. However, you will work directly with the School Partnerships team to help your vision come to life. We may request media releases to help us document the project on our website.
